

How to Use Trice Labels

Last Modified on 09/15/2025 7:25 am EDT

Labels are a text tag that can be applied to all images in an entire study or select images within a study that make it easy to organise, search, filter and recall from your Trice database. This video will show you how to take advantage of Trice Labels for everyday queries, education, certification, quality assurance or AI and machine learning.
